

OneEQ is a full-service technology, planning and operational consultancy committed to improving clinical outcomes, operational efficiency, financial performance and patient satisfaction.

Because we understand the pressure to deliver quality care and improved outcomes at a time of shrinking capital expenditures, our deep bench of clinical and engineering specialists and technologists guide you through all aspects of the project—from design to delivery to installation. We help navigate the decision-making as well as the budgeting process to create patient-centric healing environments that blend next-generation technology with proven, humanistic approaches.

OneEQ is a new name and a new look for us, but we've been around for nearly three decades—a collaborative team of professionals working across the healthcare continuum, from inception through activation, to solve our clients' most intractable and complex challenges.

OneEQ. High tech. Human.

**high tech. human.**

# What We Do

From the ever-expanding demands of technology to the central importance of the patient, OneEQ brings the experience, the expertise and the vision to drive tangible improvements in:

From equipment planning, to procurement to construction administration and deployment logistics, to design and construction, we provide our clients with a single point of contact—the OneEQ—and a full-service consultancy that drives efficiency for every aspect of a healthcare organization.

# Our Services

OneEQ provides a continuum of customized services to drive optimum value and mitigate risk.

# Our Impact

We understand our clients' pain points—clinical, operational and financial—and marshal our knowledge and expertise to enhance the patient experience, drive improved outcomes and remove inefficiencies. A few examples:

**Reduce Cost and Anxiety**

Our comprehensive, collaborative needs assessment of this client's six cardiac cath/interventional labs **reduced equipment costs by \$1.3M** and defined an implementation strategy that **saved time, money and anxiety.**

With the looming opening date of their new replacement hospital, a multi-facility IDN tapped us to **fast-track** a revised equipment list as well as an equipment procurement and installation strategy. We delivered on time, in **full compliance** and **reduced the equipment spend by \$2.3M.**

**Speed to Street**

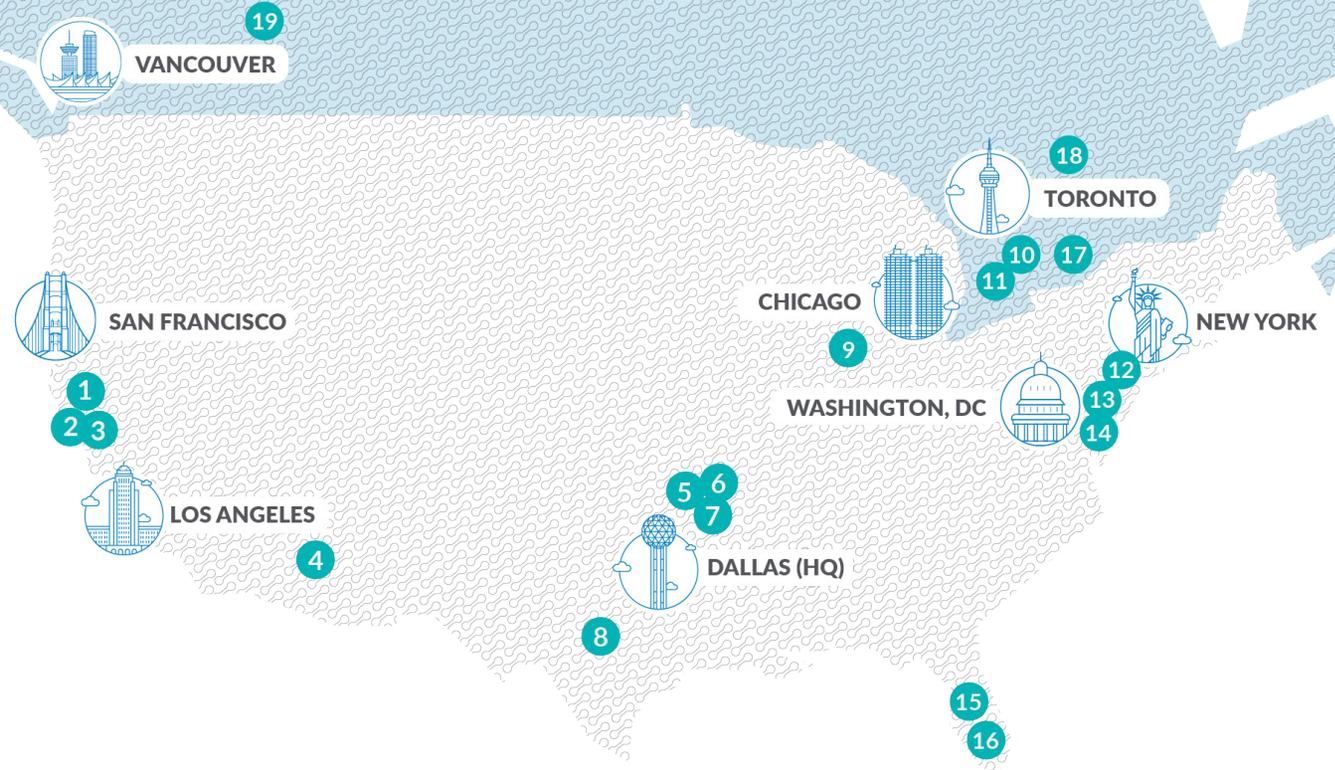

**Increase Accuracy**

By leveraging automated asset-tracking technology, we streamlined the procurement, handling and installation of equipment for a 1MSF replacement facility. The system eliminated the need for unnecessary gates and bureaucracy, **reducing project expenses by \$150M**, and baked in future **flexibility** and **inventory control.**

# What We Do and Why We Do It.

We've solved some of the biggest, most intractable problems in the industry. And we've done it for some of the most demanding clients in North America. Our continuum of customized services drives optimum value, helps mitigate risk and gives you a single point of contact throughout.
